

I think it is a shocking decision that you have decided to allow the airing of the anti-Kerry movie. I ask you, do you think in your heart, you would have allowed such a program to have aired about Pr. Bush?

Your job is not to create news! I hope one day the FCC returns to not being a watchdog and hounddog for the government.

Don't forget, your children and grandchildren will be inheriting this deficit. Unless you are Michael Powell's family...
